

REMARKS

The Examiner has alleged that the claims do not comply with the unity of invention requirement and required election of one of the cyclic groups A and B from a list provided in claim 4.

Applicant hereby provisionally elects cyclic group A to be phenyl and cyclic group B to be isoquinoline. For search purposes, Applicant elects the structure of general formula (2) with the above-noted groups in which M is iridium (Ir). Claims 1-6 read on the elected species.

Applicant's undersigned attorney may be reached in our New York office by telephone at (212) 218-2100. All correspondence should continue to be directed to our address given below.

Respectfully submitted,

/Jason M. Okun/
